Wartime brings an ever-increasing tide of personal troubles and worries for everyone. Food rationing, a n d food shortages, mileage rationing, shoe rationing, tax problems, draft problems, emergency regulations, and dozens of other things new to our way of life make it more complex each day.

This makes more important than ever periods of relaxation, when at intervals we can sit down in our homes, and let the cares slide off our shoulders. There's no better aid to relaxation, alone or with friends, than a delicious beverage made of quality ingredients.

You'll find quality high in the well-known brands of fine liquors, wines, beers, mixers and tobaccos stocked here.

We recommend Midtown

Rival For Apple Pie

TRY this recipe for Apple Cake and I think you'll agree with me that it becomes a serious threat to America's favorite dessert. In fact, you may possibly rate it second to none. And what's more, it does not require a bit of your precious sugar, as corn syrup proves to be a worthy substitute.

Apple Cake

1 cup sifted flour; 1 teaspoon double-acting baking powder; ¼ teaspoon salt; 3 tablespoons shortening; 1 egg, well beaten; 4 tablespoons light corn syrup; ¼ cup milk.

3 apples, pared, cored, and thinly sliced; 4 tablespoons dark corn syrup; ½ teaspoon cinnamon; 2 tablespoons butter.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Combine eggs, corn syrup, and milk; add all at once to flour mixture, stirring carefully until mixture is blended. Turn into greased 9-inch pie plate, spreading dough evenly. Cover surface of dough with overlapping apple slices. Combine corn syrup and cinnamon and pour over top; dot with butter. Bake in hot oven (400° F.) 35 minutes, or until apples are tender. Serve warm; serve with cream, if desired. Serves 8.

MORE ABOUT INCOME TAX

Every individual is allowed a credit against his net income which varies with his domestic status, that is, whether he is (a) a single person, (b) a married person living with husband or wife, or (c) a head of family. This credit is known as personal exemption, and is shown on line 21 of the return Form 1040. The amount of the personal exemption also varies depending upon the period during which the taxpayer occupied the particular exemption status.

The personal exemption for a single person is \$500 for the year; for a married person living with husband or wife, \$1200; and for a "head of family," \$1200. (Personal exemption as head of a family has no effect on liability to file a return.) For Federal income tax purposes, widows, widowers, divorcees, and married persons separated by mutual consent, as well as persons who have never been married, are classed as single persons.

A head of family is defined as "an individual who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption, and whose right to exercise family control and provide for those dependent individuals is based upon some moral or legal obligation." A single person, or a married person not living with husband or wife, may, therefore, enjoy a head of family exemption under certain conditions.

Taxpayers using a Simplified Return (which is permitted if the gross income for the year is \$3000 or less and derived solely from earnings from employment and or from dividends, interest and annuities) obtain personal exemption based on their status as of July 1 of the year. Thus, a taxpayer married and living with his husband or wife on July 1 is entitled to \$1200 personal exemption on Form 1040A; if he were a widower on July 1, his exemption would be \$500, irrespective of the date on which he became a widower. The amount of the exemption is not deductible from the income but is reflected in the amount of tax shown in the table on the reverse side of the form.

Taxpayers using return Form 1040 obtain personal exemption proportionate with the number of months during which the particular status is held. Thus, for a person who married on July 1, (who was not a head of family prior to his marriage, the personal exemption would be \$850 (\$250 for the six months as a single man, plus \$600 for the six months as a married man). In this example it is assumed that the wife has no income.

Married persons may, however, file joint returns, even though one has no income, and by filing a joint return a couple married during the year may obtain an exemption amounting to the exemption to which they would be entitled for the period of married status, plus the amount of their individual exemptions prior to their marriage. In the example given the total exemption in a joint return would be \$1100 (\$250 for each spouse for six months plus \$600 for six months married status).

If a husband and wife living together both have income and file separate returns on Form 1040, the personal exemption applicable to a married person may be taken in the return of either or divided between them in any way as they may agree, but the total personal exemption taken in the two separate returns may not exceed \$1200.

HOW TO MAKE A LITTLE MEAT GO A LONG WAY

by Dorothy Greig

Chicken-Nut Croquettes—awfully good and highly nutritious.

BEEF? "It's scarce, I'm filling orders in rotation," says the butcher. Lamb chops? "Sorry, no chops this week," he tells you.

Where is the meat going? Well, my dears, it is headed for the men in the army, in the navy, the air force, the coast guard and the marines. It is going to our allies on Lend-Lease. With the jobs they all have on hand, they need our meat more than we do. Boys and Partners, it's yours—and welcome.

Look at what we have left! Poultry—that's not rationed. Neither is fish. We have all the variety meats such as liver, tripe, sweetbreads, kidneys, heart and the like. On top of that we are still permitted the other meats in rationed amount.

Why not of our own accord cut below the amount? We can do it and still eat magnificently. For instance, the croquettes described here require no meat. They are a delicious combination of chopped nuts and chicken soup—maybe unusual, but awfully good to eat.

Chicken and Nut Croquettes

2 cans new and improved condensed chicken soup
1/2 cup milk
4 tablespoons butter or fat
4 1/2 tablespoons flour
1/2 cup chopped nutmeats (pecans, almonds, or peanuts)

Strain the chicken soup and to the broth add the 1/2 cup milk. (If this does not make 2 cups of liquid, add more milk.)

Melt the fat in a saucepan, add flour and cook until frothy. To this add 1 cup of the liquid, which has been heated, and cook until thickened. Then add rice, chicken and celery which was strained from the soup and chopped nutmeats. Chill in

refrigerator until stiff and easy to mold.

To shape croquettes: Shape into croquettes. Then roll in sifted bread crumbs. Beat 1 egg and to it add 1 tablespoon water. Dip the croquettes into the egg mixture and again roll in crumbs.

Fry croquettes in deep fat or salad oil that has been heated to 370-385° F. for 2 to 3 minutes. Makes 6 croquettes.

Creamy Chicken Sauce

1 1/2 tablespoons butter or fat
1 1/2 tablespoons flour
1 cup chicken broth and milk mixture

Melt the butter or fat in a saucepan, add flour and cook until frothy. Heat the chicken broth and milk mixture, add to fat and flour and cook until thickened. Serve with the croquettes. Makes approximately 1 cup sauce.

Another meat saving dish is this Hash Ring. It calls for beef, but only two cups to make six servings:

Baked Beef and Potato Hash Ring

2 tablespoons butter or fat
1 medium size onion, chopped
2 cups cooked beef, ground
2 cups cooked potatoes, chopped
2 teaspoon salt
1/2 teaspoon pepper
1 cup new and improved condensed consommé

Cook the chopped onion in fat until soft and yellow. Then mix it with ground beef, chopped potatoes, seasonings and consommé. Put into a buttered ring mold (measuring about 7 1/2 inches in diameter) and bake in a hot oven (400° F.) for 45 minutes to 1 hour. Serves 6.

Note: Most hash recipes require equal quantities of meat and potatoes. In this hash we use half again as many potatoes and add the consommé for meat flavor.

WAR HOUSING IN COUNTY

"Three hundred and thirty-four applications for living units were received during the last month," reports Louis Lengfeld, manager of the San Mateo County War Housing center. "Seventy-nine of these applications were for rooms, of which 50 were filled. Two hundred and fifty-five were for apartments or houses, but only 34 of these were placed, which is less than 14 per cent."

"Because of an overflow from crowded San Francisco, applications have been increasing in the past few days. From present indications the amount of public and private housing allocated to our district will be insufficient to

meet the demand. The shortage of critical materials makes it questionable whether sufficient additional housing can be built during the war."

"If the situation becomes worse some sort of regulation will be inevitable. The Government is trying to solve this housing problem on a voluntary basis, and if everyone will cooperate, regulations will not be necessary. List any vacant apartments or homes reasonably close to transportation, especially furnished ones, with the War Housing center, 1615 Flordunda avenue, Burlingame," he concluded.

MEETS-FRENCH CHIEF—Gen. Henri Honore Giraud, North African high commissioner, with President Roosevelt at Casablanca conference.

You Can Still Speed ... On Ice Skates!

Many who would miss entirely the once familiar sensation of the wind blowing in their faces as they breezed along with the top down, are recapturing the effect

at least by ice skating at San Francisco's Winterland, Post and Steiner streets.

At any rate, you can go twice as fast on skates as you are allowed to drive on the highway these days! It has been calculated by mathematicians that cham-

pion skaters average a speed of 70 miles an hour in the sensational spins they perform during ice skating competitions. This would not seem to be a terrific rate of speed in the days before we started conserving rubber, but it's plenty fast if you are a solo skat-

er making eighty or ninety revolutions in a single spin. Such sights are common ones at the practice tests for competitive skaters, which are a regular feature at the big rink. Not exceeding the legal limit, but going pretty fast themselves

are the speed skaters. On their extra-long blades which give them added traction for speed they are enabled to hit a rate of about 30 miles an hour. Their races and barrel-jumping exhibitions are seen regularly at the public sessions, Thursday nights.

POINT FOOD RATIONING POINT RATIONING WILL BEGIN MONDAY, MARCH 1st

The Office of Price Administration regulations forbid the sale of any rationed items including processed or canned fruits and vegetables, or fruit and vegetable juices hermetically sealed in cans or glass containers during the period from February 21st to February 28th, inclusive.

Everyone, of course, will want to cooperate. Your Safeway store is using this time to stock the shelves and train employees to better serve you under point rationing.

When sales start under point rationing, you will find a good variety of all rationed items available at Safeway's usual low prices. Remember, hundreds of non-rationed items are available for your selection during the "Freeze" period at your neighborhood Safeway.

Don't Slight Breakfasts

If there ever was a time for talking up breakfasts, it is the present. Almost every one of us is carrying an extra load of responsibility these days and we need an extra good start to put us on our toes bright and early. And we need a substantial breakfast also to see us through the entire morning without that mid-morning let down.

You don't have to be a martyr to rationing and neglect this morning meal on that count. There are all kinds of delicious offerings around which to build the breakfast menu that will bring an early morning sparkle to those sleepyheads. On these chill mornings, serve a piping hot main course like pancakes, waffles, or fried mush with heated syrup. Those favorites are better than the best alarm clock to get the family out of bed. Try it and see for yourself.

PANCAKES—Make them with prepared flour if time's an item, or with enriched flour for that extra vitamin B. You can make the batter the night before with the exception of the melted shortening. Add it in the morning while the griddle is getting hot. I like to make my pancakes about the size of a dollar (an inflated dollar, maybe) and serve them in miniature stacks along with a pitcher of heated syrup. Have the breakfast all set and ready to eat as they come off the griddle.

WAFFLES—Any way you serve them, they always seem like an extra treat. Vary them by adding chopped nuts to the batter, or dried fruit or grated apple. Corn meal waffles are lip-smacking too. Substitute half the flour for corn meal. And don't forget the heated syrup and hot breakfast plates.

FRIED MUSH—Here's an oldtimer worth repeating often. Make twice the family capacity for mush, corn meal, oatmeal, wheat cereal or any other favorite, and serve it the first morning as a hot cereal. Pack the rest in a loaf pan lined with waxed paper and put it in the refrigerator for the following morning. Come breakfast time again, take it out and slice it into ½-inch slices and fry in hot shortening until honey-brown on both sides. Speed them from the griddle to a hot plate and serve with heated syrup.

MAKE BREAKFAST A FAMILY AFFAIR—If possible, have the whole family together for breakfast, even if it means getting up a little earlier. A family breakfast is a cherished custom that has a powerful psychological effect that makes the world seem brighter.

GET YOUR FREE FAMILY CIRCLE TUESDAY

"Double duty for pancakes and waffles" is the title of the article by Julia Lee Wright in this week's Family Circle. Be sure to get your free copy Tuesday.

**Safeway
Homemakers' Bureau**
JULIA LEE WRIGHT, Director

Prices in this ad are effective Wednesday, Thursday, Friday, and Saturday, February 24, 25, 26 and 27 in San Francisco, Oakland, Berkeley, Alameda, Richmond, Hayward and other cities and towns in the San Francisco, Alameda, and Contra Costa counties areas. Price changes are required as a result of new regulations from the O. P. A.

AVOID MID-MORNING LETDOWN

These are no days for gulp-and-run breakfasts. Everyone's working harder and longer. So be sure and start your family off to work or school well fortified with a delicious, balanced breakfast, morning after morning.

THE FOLLOWING ITEMS ARE NOT INCLUDED:

Canned Fruits. Jam—Jellies. Potato Salad. Canned Cereals. Other. Pickles. Preserves. Relishes. Fruit Preserves. Frozen Fruits in containers over 10 pounds. Frozen Vegetables in containers over 10 pounds. Fruit Juices in containers over 10 pounds. Meat Stews containing some Vegetables. Meat Products—such as Sausages, Meatballs, Meatloaf, whether or not they are packed with added Vegetable Sauce. Vegetable Salads in containers over 10 pounds. The products of fruits or vegetables such as corn, bean oil, corn bean milk, fruit and vegetable skins, and similar products.

INSTRUCTIONS.—To find the Point Value of an item:

1. Find out the net weight of the contents (from the label, if any).
 2. In the line across the top of the chart, showing the weight in ounces and pounds, find the column in which this weight belongs.
 3. Find the item in the listing of items in the column to the left.
 4. The POINT VALUE of the item appears on the same line as the item and in the column listing the correct weight.
- All Point Values must be determined by weight. If no weight is marked on the item, the item must be weighed.
- In finding the Point Value of a container where contents are given in fluid ounces, transfer the fluid ounces to the same as the corresponding weight ounces. One pint is one pound; one quart is two pounds.

The Point Value of any item weighing over four (4) pounds shall be arrived at by multiplying the number of pounds of that item by the Point Value per pound of that item as given in the "Per Pound" column. Fractions of a pound should be figured in quarter-pounds. Fractions of a quarter-pound should be figured to the next higher quarter-pound. Thus, an item weighing 4 pounds 3 ounces would be considered as weighing 4 pounds 12 ounces for the purpose of finding the Point Value of that item.

This Chart Must Be Displayed in a Prominent Place
